

# Violence Against Women - It Affects Us All

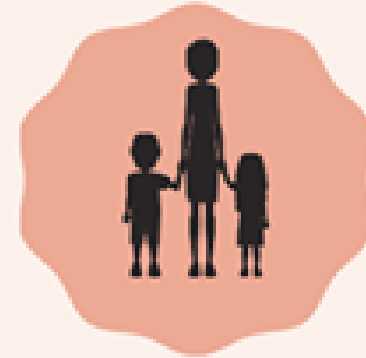

## We all know someone affected

37% of all women in Canada aged 15 or older have experienced at least one incident of physical or sexual violence.

## Women at highest risk of death

Every 6 days, a woman in Canada is killed by her intimate partner.

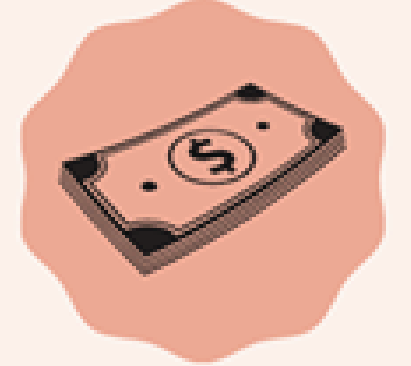

## Nowhere safe to go

Every day in Canada 6,000 women and children are living in emergency shelters to escape domestic violence. 300 women and children are turned away on any given night because shelters are full.

## Witnessing Violence

Children who witness violence in the home have twice the rate of psychaitric disorders as children from non-violent homes.

## It costs all Canadians

Collectively, Canadians spend \$7.4 billion each year to deal with the aftermath of spousal violence.

**THERE ARE PLENTY OF WAYS TO HELP END VIOLENCE AGAINST WOMEN**
